INTRODUCTION

Established in 2007 by Derek Holdsworth, Clanfin's philosophy has always been a continued focus on tailor made personal service. The company's original niche market was the trucking industry, but as a result of our clients wanting us to extend the range of professional services we offer, we now include a greater variety of professional cover such as commercial, engineering, agricultural, marine, domestic and aviation insurance.

Our Vision

To consistently share the Clanfin ethic of honesty, integrity and of growth through service excellence.

Our Mission Statement

Build the highest level of trust through establishing lasting relationships with our clients in order to meet their individual needs. We pride ourselves in creating a sustainable future for our clients and staff through our methodology of treating customers fairly (TCF).

OUR PRACTICE

Clanfin now boasts a staff complement of 27 qualified staff members who specialise in marketing, underwriting and claims. The company philosophy of service through excellence is enforced, whereby the client is treated fairly and there is constant feedback on claims progress and changes in legislation.

Clanfin understands that in the insurance industry, people deal with people and we therefore work on building long term relationships with our clients that provide mutually beneficial results.

Our key individuals and representatives meet the fit and proper requirements as prescribed by FAIS to assist the client in a professional manner with their insurance needs.
